gigglebooth Information

MCKDJ – gigglebooth has the following photo sets available for their gigglebooth. Depending on the number of photos in the set, that is how many shots will be taken during your session. The only exception to this rule is Photo Set 2 which is 2 identical strips of 4 photos. This is our most requested set for Wedding Receptions and Dances. One strip would stay with the guest, the other would be placed in a photo album for the wedding couple. Our most popular set for meetings, parties and other events is Photo Set 3. Our most popular set for Greeting Cards is Photo Set 5. Regardless which set you choose, the format you choose will remain the same for the duration of your event.

On the following pages are 8 different formats that are available. Each format will have space for a name, name and date, or just a date. Please provide the format you will want to use to your dj as soon as you know.

All photos are free to copy and paste to any media or social websites of your choosing, such as Facebook, Twitter, My Space, and many more! An online gallery will be available shortly after your event where you will be able to download or order extra prints, hats, mugs, enlargements and much more! A flash drive of all photos is available for a small fee of only \$25, and must be paid on-site, after completion of your event.

As always, gratuities are always appreciated and are based on your complete satisfaction!

gigglebooth Photo Set 1

Max's 30th Birthday - August 1, 2012
